

Your social media. Not your job.

We manage your social media from strategy to results — so you can focus on running your business. Strategy, content, creative, publishing, community, leads, analytics and optimisation, as one system.

Advertising spend is separate.

The monthly fee covers the Èrọ Labs service. Any Meta, Instagram or Facebook advertising budget is paid separately and is never taken out of the figures above.

THE FIRST THIRTY DAYS

- Days 1–3** We take it off you — one call, account access, and we read what has been posted so far.
- Days 4–7** You approve a month — pillars, calendar and first concepts. One approval, not thirty.
- Days 8–10** The first posts go out — written, designed, scheduled. You see the queue first.
- Days 11–25** It runs without you — posting on schedule, messages answered, buyers captured.
- Day 30** The month in numbers — and next month planned from this month's figures.
